If you aren't adding the second layer, this is all you need.

After scoring the 11" x 4-1/4", use a punch (I used a 1-3/4" Circle Punch but many different sizes would work) to make the gift card pull out easily.

Add adhesive just to the top and bottom edges of the left panel of the card.

Remove the adhesive, fold up the card and now all you need to do is decorate!
