Cut the Designer Series Paper into 5" x 4", cut off 1" on the long end and flip it over. Attach it to the card – there will be a little overlap which looks good since it accents the change of paper.

With one sheet of Designer Series Paper, you will get six 5" x 4" pieces, leaving a 2" strip at the end for other projects. Since you get two of each of the papers in the set, you can make twelve of each of the cards.
