These techniques are all found in the Double Ribbons Video

1. Double Layer

Cut two ribbons a little longer than the cardstock.

Lay the narrower ribbon on top of the wider and attach to the back of the card.

2. Double Strips with Bow

Cut two different ribbons at different lengths and attach to the card front. Add a bow.

3. Double Tie

Layer one ribbon across a second ribbon at an angle like shown. Tie the bottom ribbon across the first.

Attach all four ends of the ribbons to the back of the card - spreading them out as desired.

4. Double Knot

Lay one ribbon right on top of the second ribbon and tie together. Twist the ribbons as you tighten them to get the sides you want showing.

5. Twisted Knot

card by Lisa Miltokis

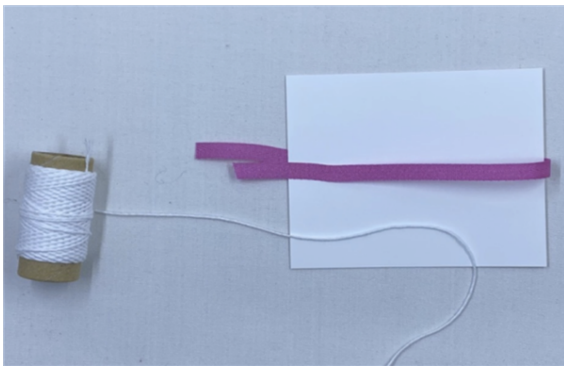

This is done the same way as #4 but with short pieces of ribbon. Notice how you can make it so that both ribbon ends match - or mix it up like the zebra card with one of each side showing. (That is the way the ribbon wants to go naturally.)

6. Wrapped Ends

Wrap your ribbon around your cardstock leaving ends sticking out this this. Tie twine or linen thread around the ribbon edges.

7. Tied Accents

Use twine or narrow ribbons to tie knots around ribbon scraps of all widths.

8. Small Ribbons Tied around Long Ribbons

This idea is like #7 - but on these cards, you start with a ribbon attached around the cardstock and add the short ribbon around that.

card by Cathy Seal

Notice how the blue ribbon is tied around the white and then turned upside down before attach to the cardstock.
