## Easy Diagonal Joy Fold Card Project Sheet

Cut the front of the base card and the  $3-3/4" \ge 5"$  piece of Designer Series Paper in half to make two triangles like this.

Add the other Designer Series Paper piece on the card inside.

Fold and decorate the front of the  $3'' \ge 8''$  piece.

Layer the Designer Series Paper triangle on the card front, which is also a triangle.

Attach the  $3'' \ge 8''$  folded piece to the middle of the card inside.

The front flap will fold over under this piece so it will all look like this!
