

All Good Cards Club – March 2023

Gatefold Cards Vol 2 Online Class – Session 3

Triple Fold Gatefold Cards Version 1

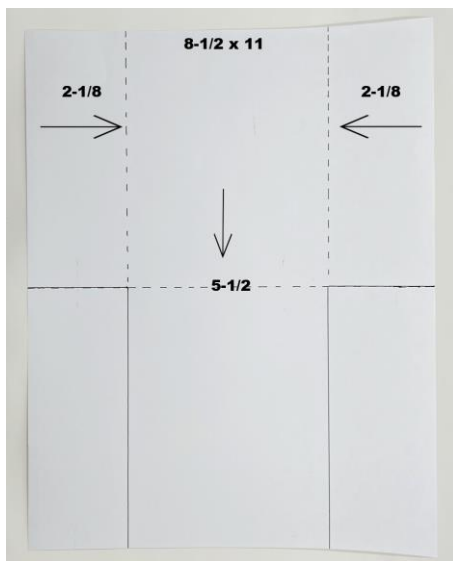

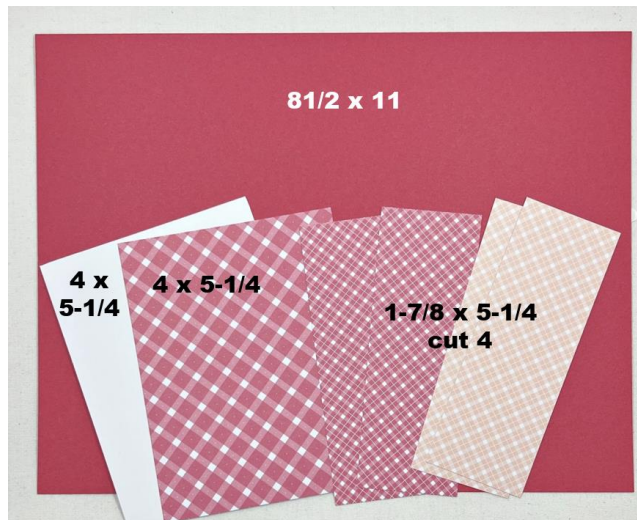

This card is made with one 8-1/2" x 11" sheet of cardstock.

Watch how it opens. The inside can hold a gift card or just be left as a card inside.

(This card uses the Share a Milkshake Bundle with the Country Gingham Designer Series Paper and Sweet Sorbet cardstock, but use whatever you have to make this.)

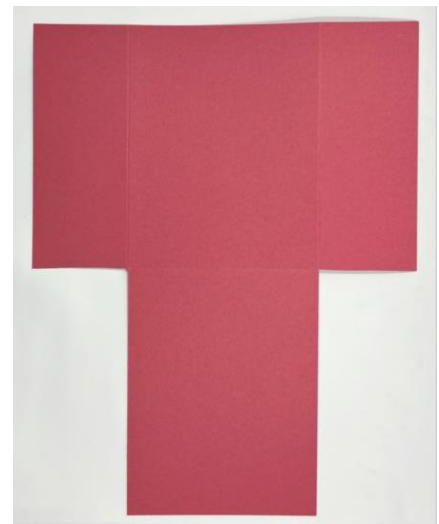

Supplies:

1. Score the full sheet of cardstock in the middle @ $5\frac{1}{2}$ ". Then turn and score @ $2\frac{1}{8}$ " from each side.

Your cardstock will look like this.

2. Fold the top flap down first. Then fold the two sides over that to meet in the middle. Trim any edges if needed for the card to fold flat.

3. Add the other pieces to the insides of the card and the card front.

(To make the inside a gift card holder, just add a small piece of Designer Series Paper to make the pocket.)

Triple Fold Gatefold Cards Version 2

This is the same card except that the two sides of the card are folded to meet in the middle first. Then the front flap is folded over.

(This card uses the Desert Details Bundle with the Delicate Desert Designer Series Paper and Cajun Craze cardstock.)

Do you see the difference? It all depends on how you want the front of your card to look.
