

# Simple Fun Fold: Pinwheel Card/Quilt Card Project Sheet

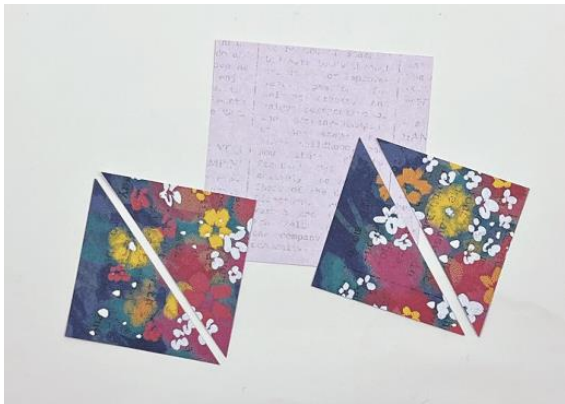

Measurements:

Cut the two 2" squares from one corner to the opposite like this.

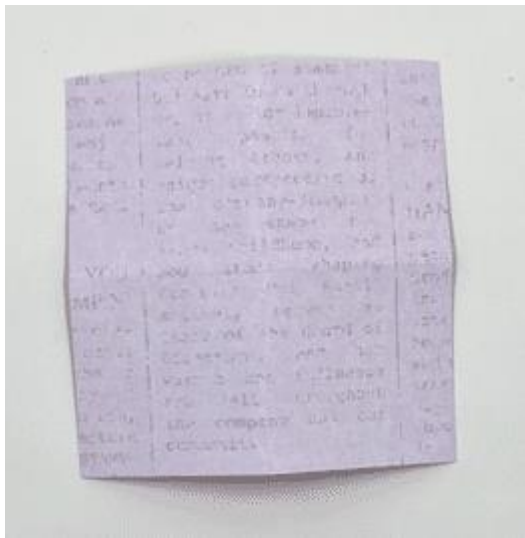

Take each triangle and add adhesive on just one end. Curve the end over to attach to the bottom corner of the triangle like this.

Fold the 2-3/4" square in half both ways.

Layer this on the 3" square.

Add adhesive to the long edges of the four pieces and attach them to the larger square, using the folded lines as a guide.

Attach it just like this to the card base.

You can always add a 4" x 5-1/4" layer on your base card to add even more interest to your card.

## How to change this Pinwheel card into a Quilt card?

Just add adhesive and fold the paper flat!
