

Simple 6 x 6 One Sheet Wonder Project Sheet

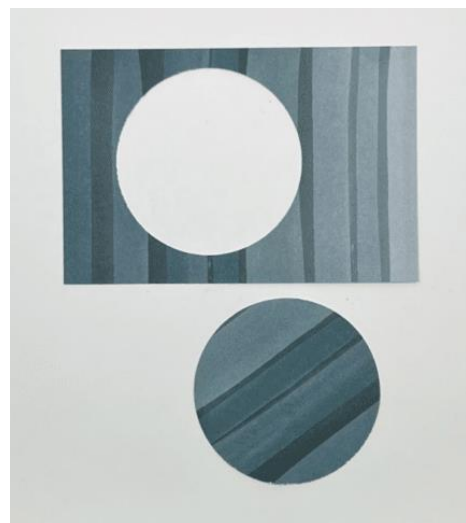

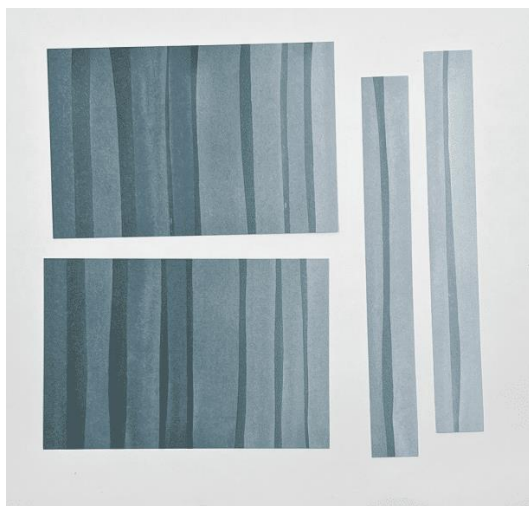

Measurements:

Here is the template for the 6" x 6" paper - but remember that the shape doesn't need to be a circle.

Your cut paper will look like this.

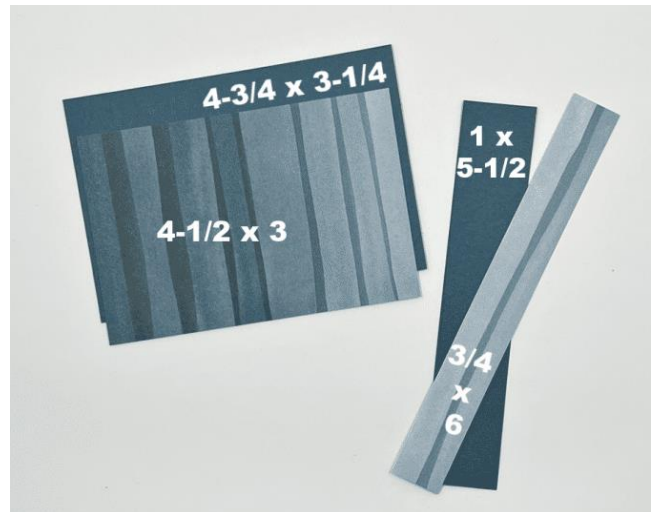

Each of the 4-1/2" x 3" pieces will have a circle, square or any other shape punched or die cut.

Flip over the narrow strip and the punched out piece to provide the contrast. Add the narrow strip across the card front. Add the main piece and finally add the punched out piece using Stampin' Dimensionals to make it pop up.

If you want to add layers, these are the measurements you will use. Punch out the circle before attaching the main piece to the extra layer.
