Project Sheet: Simple Card Template for Any Occasion

One simple card layout that works for *any* occasion. Whether you need a birthday card, a thank-you note, or even a last-minute holiday card, this layout has you covered. The best part? It only takes a few supplies and comes together quickly, which makes it perfect for mass producing. So if you like to make multiples or need to build your stash of cards, you'll definitely want to give this one a try.

Supplies:

Card Base :: 11" x 4-1/4"

Basic White :: 3-3/4" x 5"

DSP :: 2-1/4" x 2-3/4"

DSP :: 5" x 1"

if you want to add layer, add a 4" x 5-1/4" piece of coordinating cardstock

Instructions:

1. Score your card base in half and fold.
2. Adhere the 5" x 1" DSP strip along the side of the Basic White piece (you can do it on either left or right side for variations) and adhere the 2-1/4" x 2-3/4" DSP piece on the bottom as shown.
3. Add your sentiment and accent pieces.
