

Project Sheet: Pull-Out Gift Card Holder

This project combines simple folds with a clever design that's easy to recreate. You can use any Designer Series Paper or color combination to fit the occasion — from holidays and birthdays to thank-you gifts and celebrations. The best part is how the gift card slides out smoothly when the card is opened, giving your recipient a delightful surprise!

Supplies:

Card Base :: 8-1/2" x 5-1/2"

DSP :: 2-1/4" x 5-1/4"

DSP :: 1-3/4" x 5-1/4"

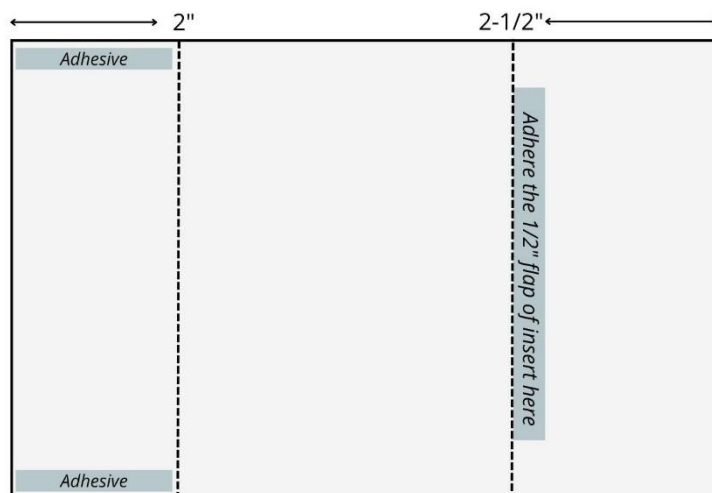

Basic White :: 4-1/4" x 5-7/8"

Instructions:

1. Score the card base at 2" from one side and at 2-1/2" from the other side and fold both flaps inwards.
2. Adhere the 2-1/4" x 5-1/4" DSP piece on the 2-1/2" flap and the 1-3/4" x 5-1/4" DSP piece on the 2" flap.
3. For the insert, score the 4-1/4" x 5-7/8" Basic White piece at 2" from one side at 1/2" from the other side. Punch/cut half circle on the top edge of the bigger flap as shown.

4. Adhere the 1/2" flap of the insert along the score line of the card base as shown.
5. Put adhesive on both sides of the bottom flap to close up the pocket.
6. Add your accent/sentiment pieces.
