

Project Sheet: Faux Ribbon Weave

Using $\frac{1}{2}$ " strips of Designer Series Paper, you can create the look of an intricate ribbon weave pattern in a way that's surprisingly quick and relaxing to put together. It's a fantastic way to use up patterned paper strips, show off multiple designs at once, and add visual texture to your card fronts.

Supplies:

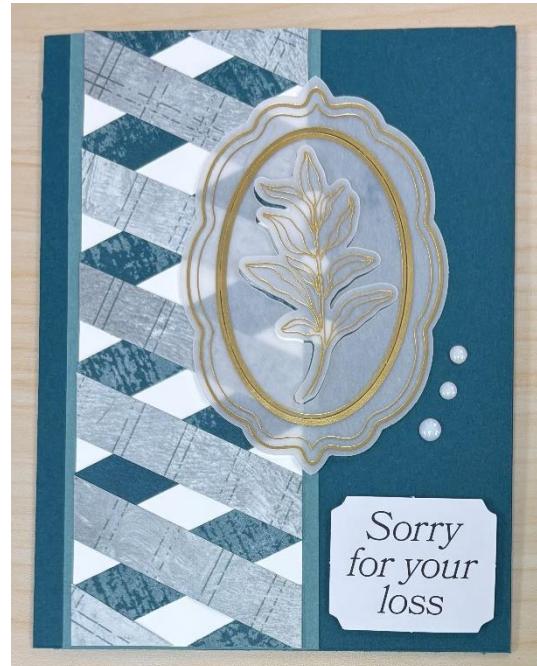

Card Base :: 8-1/2" x 5-1/2"

Basic White :: 2" x 5-1/2"

Coordinating Cardstock :: 2-1/4" x 5-1/2"

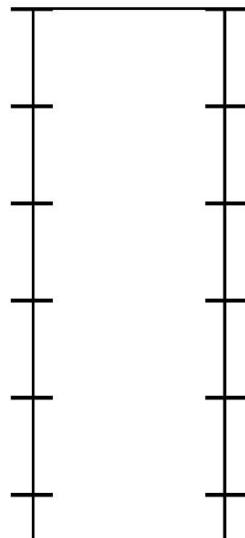

DSP strips :: 1/2" x 4" (X14)

Accent/sentiment piece

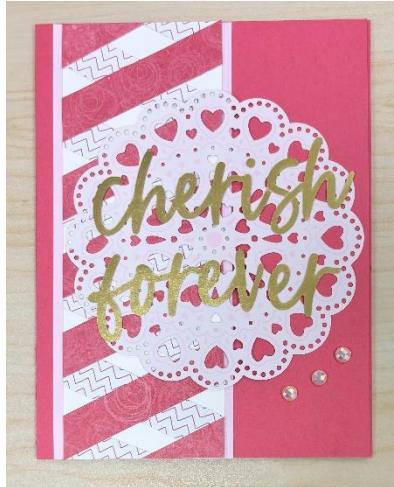

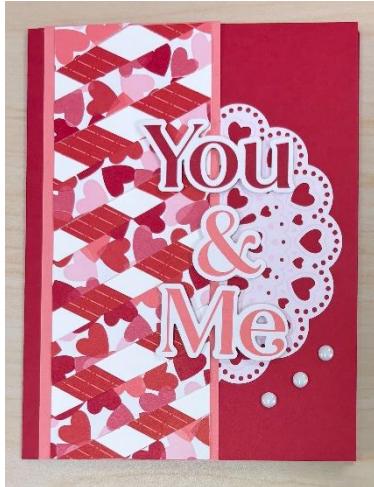

Instructions:

1. Score the card base in half and fold.
2. Mark every inch along both sides of the 2" x 5-1/2" piece of Basic White (you can also use your grid paper).
3. Put adhesive on your DSP strips. You will use 7 strips of one side of the paper, flip the other 7 pieces to use the opposite side.
4. Adhere the DSP strips on the Basic White piece. Trim off the excess on the edges.
5. Layer this on the 2-1/4" x 5-1/2" piece of coordinating cardstock. Then adhere on the card front.
6. Add your accent/sentiment piece.
