

Project Sheet: Paper Piecing

Paper piecing is one of those techniques that looks detailed and impressive, but once you try it, you'll see how simple it really is. Instead of coloring your stamped image, you stamp it onto patterned paper and cut or punch out the pieces you want to highlight. Then you layer them back onto your base image. It's a relaxed way to craft and a great excuse to use up those favorite paper scraps.

Supplies:

Card Base :: 8-1/2" x 5-1/2"

Cardstock :: 4" x 5-1/4"

Basic White :: 3-3/4" x 5"

Designer Series Paper :: scrap

Stamp

Instructions:

1. Score the card base in half and fold.
2. Stamp the sentiment on the bottom corner of the Basic White piece. Layer this onto the coordinating cardstock and adhere on the card base.
3. Stamp your images on a piece of Designer Series Paper and fussy cut.
4. Adhere the fussy cut pieces on the card front (use dimensionals to pop up the image you want to highlight).

Check out my video on YouTube to see these cards being made:
